Office Action Summary	Application No. 10/801,804	Applicant(s) HARPER ET AL.	
	Examiner Susan C. Alimenti	Art Unit 3644	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on 16 March 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 5 recites the limitation "said lips" in line 10. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hoagland (US 6,539,895), and further in view of Markey et al. (US 5,551,371).

Hoagland discloses the claimed invention except the fastening members are not a tab/aperture type locking system. Hoagland's per shelter comprises, a bottom member 14, top member 10, and a medial member 12 (See Examiner's reference characters in Figure 3). The medial member's bottom and top edges have interface lips 18 for mating engagement with respective lips on the edges 20 of the bottom 14 and top 10 member's. While Hoagland does not

positively show a tab fitting into a respective aperture in the medial 12 and bottom 14 members, it is taught that the fastening means may include the shown latches or a snap fastener. *Hoagland*, col.2, lns.37-39. Markey et al (Markey hereafter) discloses a multi-part pet shelter that utilizes a snap fastener to attach the separate parts. Markey's fastener comprises a tab 74 extending downward, that snaps into an aperture 46. Such a fastening system allows the manufacturer to construct the housing and fastening means in one molding step, thus eliminating the need for such extra parts as a separate metal faster, such as that used by Hoagland, and lessening the necessary manufacturing steps. It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Hoagland's pet shelter by incorporating Markey's fastening system in order simplify production, thus reducing manufacturing costs.

Regarding claims 4, 7, and 11, Hoagland's device comprises multiple ribs defined as members 24 in the side of medial member 12, all of which are considered to be adjacent to the tabs in both the top and medial members.
